Management System for a safer and healthier workplace

# 1 MOVEMENT

## Points of discussion:

- What’s moving?
- Can anything start to move?
- Are people moving on site?
- Are there vehicles?
- Can someone get trapped or crushed?
- Where are bottlenecks?

*Your suggestions and tips*

## 5 PRESSURE

### Points of discussion:

- Where are the pressure sources?
- What causes pressure to be released?
- Have you checked the process insulations?
- Can your work cause pressure?

*Your suggestions and tips*

## Points of discussion:

- Where are the electricity sources?
- Are there some electricity sources hidden?
- How can you reach electricity sources?
- Has the insulation been established?
- Is formation of static electricity possible?
- Are there any overhead power lines?

### *Your suggestions and tips*
